November 2009

### NEWS FROM TANZANIA

So much has happened since our last communication with you, it will be hard to keep things short yet informative.

### TRAINING Church Planting

Our current church planter training cycle is into its second phase with a graduation planned on December 4. Our team senses a great spiritual awakening with the 14 students and 17 children who are living with us on the mission center. We all feel these are the best students yet. We are delighted that God would allow us to impact their lives so they can spread the Gospel message to their own peoples.

- *Pray that these church planters will be compelled by Christ's love to transform lives in their communities.*

Church planter students in training on the CMF-Tanzania Mission Center.

### Farming God's Way

The local community asked for assistance in purchasing seeds as they had planted 4 times this year without a crop and were out of money. Our team realized that teaching them to plant God's way was more important than just giving out seeds.

We trained 23 people on how to grow maize so they would have a significant crop yield when the rains would come. They were each given a small bag of seeds at the end of their training, and will plant these seeds by Farming God's Way.

Planting God's way.

- *Pray that these people will see God's hand at work because of their efforts to plant according to His principles.*

### CHE (Community Health Evangelism)

Training of Trainers in a small Maasai village has resulted in significant church growth. We have been told that because of the house-to-house visits by the Community Health Evangelists in this village, people have been loved in a way they have never experienced before. People are coming to Christ through the efforts of CHE training.

People coming to church under a tree because of CHE.

- *Pray that our CHE trainers will be encouraged by the significant growth in their churches and people coming to Christ by their efforts.*

### FAMINE

CMF along with IDES (International Disaster Emergency Service) have provided over 39 million Tanzanian Shillings to help feed some of the communities our team is working in. With these funds, we have focused on school children, orphans, and widows.

- *Pray that God, the Provider, will drench this dry land with His physical and spiritual life-giving water.*

*Children eating porridge for breakfast.*

### CCCT (COMMUNITY CHRISTIAN CHURCH OF TANZANIA)

Our churches in Tanzania almost have their official church registration. They have been provided a temporary registration number, and are excited that they are going to be recognized by their country as a legitimate church movement.

Our church leaders are now estimating they will have 20 churches who will become a part of their newly-formed church registration.

- *Pray that God's Word will reach into all 35 of the unreached people groups by our church planters in Tanzania.*

*New church building foundation.*

### HOLIDAYS

As the holidays begin, Annelle and I would like to wish all of you a wonderful and thoughtful Thanksgiving, Christmas, and New Year. If it were not for you, none of the events described in this prayer newsletter would have been possible.

Blessings to you and yours,

*Scott & Annelle*
